## Please review the size chart for the best fit.

When measuring, keep the measuring tape comfortably loose. If your measurements fall in between two sizes, you may prefer the larger size.

**BUST:** Measure around your chest, under your arms and around the fullest part of your bust.

**WAIST:** Measure at your natural waistline. If you want your pants to sit lower on the hip, measure where your pants will sit.

**HIPS:** Measure around the fullest part of your body, placing the tape about midway between your crotch and belly button.

**INSEAM:** Pick out your favorite pants. Measure the distance along the inseam between the crotch and the leg hem.
